02-1508001 Gold King Mine 8-13-15 Draft 1900-55.pdf

Hi Ramon – Here is a brief update on where things stand with the daily cost tracking for the Gold King Mine Release. Please let me know if you'd like me to continue sending you the 1900-55 as it gets updated, or if you'd rather just have me send you something like this basic summary.

Through 8/13/15, we have incurred \$141,447 (including all of the pending). If you exclude 8/7/15 because there were minimal labor hours and almost no expenses, then our current **approximated daily burn is \$23,575/day (\$141,447 divided by 6 days [8/8/15 through 8/13/15])**, but that will obviously increase as we are mobing additional people in and incurring more non-field support for data management/validation and GIS/IT activities.

Please let me know if you need any additional information or have any questions.

Thanks,

Lisa

Hi Lisa,

I'm very sorry. I hope that all goes well and that she has a speedy recovery. No further update until you return to the office. Just concentrate at the task at hand. I really appreciate that you took the time to respond to our request.

Thanks,

Ramon D. Albizu, START 4 PO (Contract-Level COR) / RTFL

Importance: High

Hi Ramon – I'm sorry for the delay. My sister had to go in for unexpected surgery today and I was the only one available to bring her to the hospital and I forgot to change my out of office notification. Attached is the 1900-55 through 8/11/15 and we have burned approximately \$73.5K (including pending). I will be working later to add the costs for 8/12 to the 1900-55 cost tracking and will send you that updated # when I have those costs entered – is the \$ amount sufficient, or do you want the 1900-55 again?

I will be spending the next few hours in the waiting room, so let me know if you need anything else, and don't hesitate to call me if something urgent comes up.

Thanks,

Lisa

Hi Lisa,

Can you send me a quick burn summary for the Gold King activities? Please let me know if you have any questions.

Thanks,
